MARVIN®

## Hinge Adjustment

## Lock Status Sensor

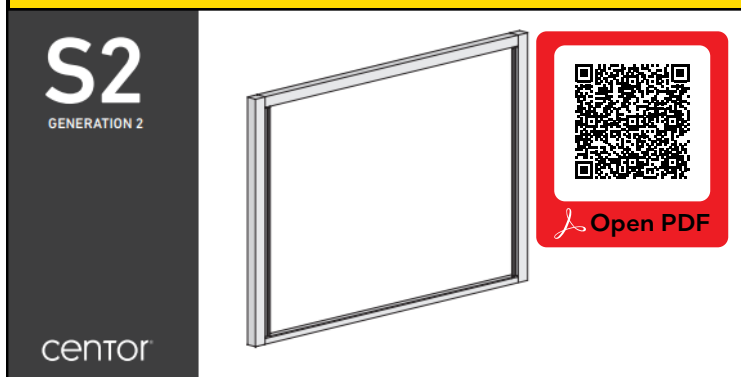

## INTRODUCTION

This instruction is a reference tool for installers to quickly summarize the major steps of an installation and to provide links to the full detailed instructions, videos and other tools. The installer **MUST** read the full instructions in their entirety and rely on that document for all warnings, procedures, and standards.

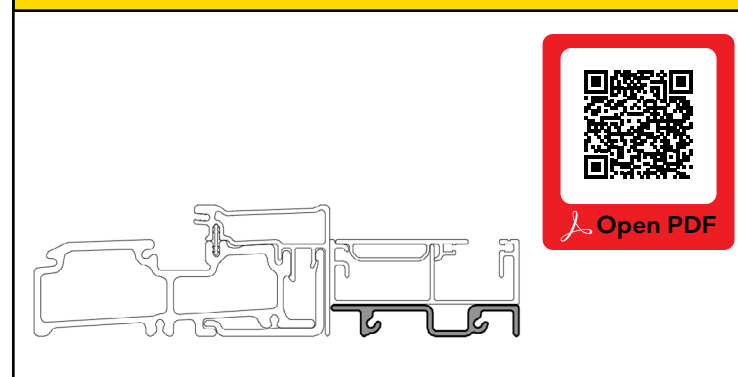

Download a bar code scanner or QR Code scanner for your mobile device and scan the QR code to open a PDF version of the full instructions. Some sections also have QR codes that link to animated videos and other resources.

 **WARNING! DO NOT lift or move without proper equipment. Read, understand, and follow all lift equipment manufacturers' instructions and safety information.**
